password to login to your  
ManageMyNotify account.

Enter Your User Name Here
•••• Enter Your Password Here
<b>Sign In</b>

To Open the Main Menu you can: Press on the area circled in Red, swipe from the left side of your mobile device or drag your mouse from the left side of your web browser screen.

There are three administrative features to this service: Announcements, Phonebooks and Jobs. **Announcements** are used to manage the announcement audio files that are available to be played for notification calls. **Phone Books** are used to organize and store your phone numbers, email addresses and text addresses. The **Jobs** section is used to add, delete, manage and activate ManageMyNotify jobs.

## Announcements

### ≡ ManageMyNotify

service outage notify

Recording 9 Recor by Phone at 09:51:33...

#### Announcements

These are the recorded messages that you can send to your Phonebook contacts. From the Main Menu press the Announcements button to access your current Announcements.

To record a new announcement press the button circled in Red.

Enter a description for your New Announcement in the Description field

#### Access Numbers

Call to setup a new Announcement.

Enter Your Notify Admin #

Enter Your Notify Admin # with Area Code

If you choose to Record from the ManageMyNotify Admin Number, follow the voice prompt instructions to complete your recording.

Press this button  
to Save your  
Recording

## Editing Announcements

To change the Announcement description press the current description and then use your device keypad to type in the new description. Press the Green Announcement button to update the description. To Delete this Announcement press the Red Delete button.

## Phonebooks

The screenshot shows a mobile application interface for managing phonebooks. At the top, a dark header bar contains a menu icon and the text "ManageMyNotify". Below this is a list of existing phonebooks:

- City Water All Residents
- vet vaccination reminders

Below the list is a toolbar with three buttons: a green message icon, a blue add button with a white plus sign (circled in red), and a blue phone icon. A dark footer bar contains the text "Phonebooks".

**Phonebooks are used to organize and store your Phone numbers, Email addresses and Text addresses . From the Main Menu press Phonebooks to access your current Phonebooks. To create a new Phonebook press the Phonebook button to open Add Phonebook**

Press on the Description to create a name for your new Phonebook.

**Add Phonebook**

Description

Email

Text Message

**Next press the Green Add button and choose from the Drop down options to add your Phone, E-Mail or Text contacts. **Phone contacts must include their Area Codes. If you are adding Text Contacts please see page 9.****

Upload multiple contacts at one time with the Cloud button. See page 9 of this User Guide.

Text Message is the 10 digit cell phone number for your contact.

Press the Green Check button to finish adding your contact to the Phonebook.

## Jobs

The Jobs section is used to add, delete, and manage notification jobs.

From the Main Menu press the Jobs button, this will display completed and scheduled Jobs. You can select any of the Jobs in your list to review details or to delete the Job.

To schedule a new Job press the Phone button circled in Red.

Enter a Description for your Job. Next press the Select Phonebook dropdown menu and choose your Phonebook of contacts that you want to Notify.

Select Phonebook

water users quadrant one

water users quadrant two

Next press the Select Announcement dropdown and select the recorded Announcement that you want your Phonebook contacts to hear. If displayed you can press the Microphone button to Record an announcement for this Job.

Select Announcement

water restriction notification

water outage notification

Press the Phone button circled in Red to immediately send out a Notification Job that will deliver your recorded announcement to your selected Phonebook.

The following pages in this User Guide contain a complete list of features that include sending text and email

**Jobs**  There are additional options to administer your ManageMyNotify Jobs by using both the General and Details tabs in the Jobs section.

## General

The General tab allows you to manage various notification jobs. You can add new jobs or edit existing ones. The Email Subject and Text Message fields are used for sending notifications via email or text. The scheduling features let you set specific dates and times for job execution.

In addition to sending out recorded announcements, the service will also send out email and text notifications. These text and email notifications can also include an attachment containing a selected Announcement.

To send out an email notification enter the subject line text you want in the Email Subject field.

The Text Message field is where you can type the message that you want included in either your email or text notification message.

The Calendar and Time fields allow for scheduling of future Jobs. By default ManageMyNotify will only send out Jobs between 8:00 AM and 9:00 PM. **Please contact our office if there is a need to change those default times.**

You can schedule Notification Jobs in advance by using the Begin Date and End Date calendars. If you want to have your Jobs run during a certain time frame you can use the Start Time and End Time feature.

From the General section you can listen to the selected announcement by pressing the Green Play button. Pressing the Green Phone button will Schedule or run a Job. The Blue X button will exit the Schedule Job screen without saving the Job.

## Jobs

There are additional options to administer your ManageMyNotify Jobs by using both the General and Details tabs in the Jobs section.

### Details

The Details section provides additional features for your ManageMyNotify Jobs that affect call notification attempts as well as special response options for your notification contacts. When you set this service up with us we create certain defaults to meet your needs so that you would not normally need to adjust settings in the Details section. The glossary below explains the functions of the Details settings.

<b>Retries</b>	Enter the number of times the job will re-dial each phone number that has not successfully answered a call. <i>Note: Select "0" and the number will be called just once.</i>
<b>Delay (min)</b>	You can select in minutes the amount of time you want the service to wait before it attempts to redial Phonebook contacts who haven't successfully received the recorded announcement.
<b>Double Delay</b>	You can double the Redial Delay time between every attempt related to the Redial Delay feature by selecting True .
<b>Min Time (sec)</b>	Enter the minimum number of seconds the announcement must be played when a call is placed for the call to be considered successful. This number should closely match the length of your Announcement if you want them to hear the entire notification message.
<b>Email</b>	Set to Send When Complete to have ManageMyNotify send an Email report when this job is complete. Please contact our office to add or delete the Email addresses where you wish to have the report sent.
<b>Response</b>	Setting this option to Enabled will allow the called person to press a digit on the phone in response to the notification announcement (e.g. "Press 1 if you agree, press 2 if you disagree.") The pressed digit will be displayed in the job report Email.
<b>Transfer 1,2,3</b>	Set to Enabled to transfer the call to a phone number or another subscribed service such as Voice Mail when a digit on the phone is pressed. This setting will be disabled if Response is set to Disabled. You can have up to 3 different Transfer options.
<b>Digit</b>	Choose the digit (0-9) on the phone that can be pressed to transfer the call. This setting will be disabled if Transfer is set to Disabled.
<b>Transfer Type</b>	Choose the type of transfer that will occur. Options include Address or Service. This setting will be disabled if Transfer is set to Disabled.
<b>To</b>	The target of the call transfer. If the Type is an Address then a 10 digit phone number must be entered in the field. If the Transfer Type is Service then a subscribed service like Voice Mail must be selected. This setting will be disabled if Transfer Enabled is set to No and is required if Transfer is set to Disabled.
<b>*Opt Out</b>	Select Enabled to give called numbers the option of opting out of future ManageMYNotify Jobs. Select Disabled to turn off the Opt Out option.
<b>*Digit</b>	Choose the digit on the phone that can be pressed to opt out of future ManageMyNotify jobs. <i>*Please see compliance note on page 10 of this brochure.</i>

**Federal Robocall Restrictions May Apply!**

**Important Note!**

**You may be subject to FCC requirements to use the Opt Out option of this service and to record the name of your company in the Preamble Announcement (Introduction Message) if your jobs are purely for sales/telemarketing calls. Failure to do so may violate FCC regulations.**

**The FCC requires additional reporting for these types of calls. There are exemptions to this order that include political, non-profit and informational reminder notifications.**

**Refer to the FCC.gov web site and search Telemarketing and Robocalls for further guidance.**
